Tamounced to you two weeks ago that Mr Burlingame had left Paris to go to his post at Vienna, and that he expected to be received by the Emperor of Austria. A week later I was surprised to see in the American papers a statement that Mr. Burlingame had been recalled from Vionna and transferred to China, because the Emperor of Austria would not receive him. The report was not at first believed here, because it would have been an evident four pas in the Secretary of State to send a recall which hight arrive immediately after the reception of Mr. Burlingame, and thus place him under the necessity of bidding adden almost as soon as received. But Mr. Burlingame had been and we have now an explanation of the whole matter. The Government at Washington, desirous of maintaining agreeable relations with all the European Fowers, as we no necessity of asking the Austrian Government to accept any man who was not entirely agrees.
